PORTFOLIO INCLUDES

This Portfolio covers everything within the event industry that we cover from small networking events to giant end of year parties.

NETWORKING EVENTS

PUBLIC EVENTS

PRIVATE EVENTS

PARTIES

NETWORKING

Whether it's morning, afternoon or night we are there capturing the fine details, the people and the concept of the event. Meaning you can use the photos to source out to people there and market for your next event.

PUBLIC EVENTS

We have captured a variety of 'public' events to help display what is happening each day to increase footfall but also achieve imagery for you to use for your next event.

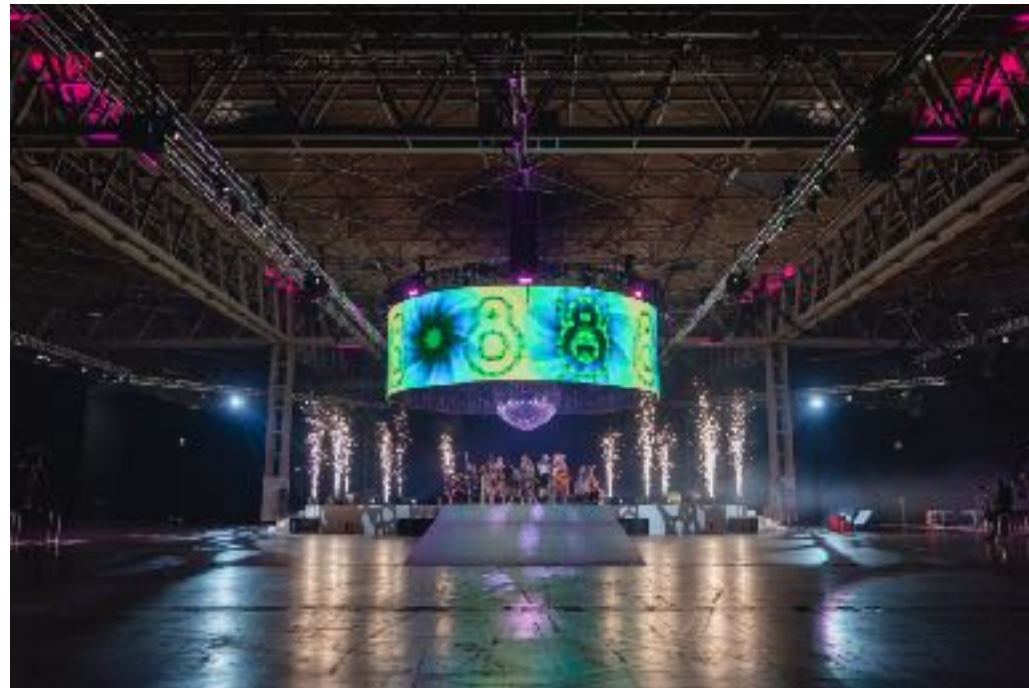

PRIVATE EVENTS

We cover a variety of public and private events. Private events usually need more of a personal level of service as majority of the events require use to capture the people at the event and the guest always want to save the photos after.

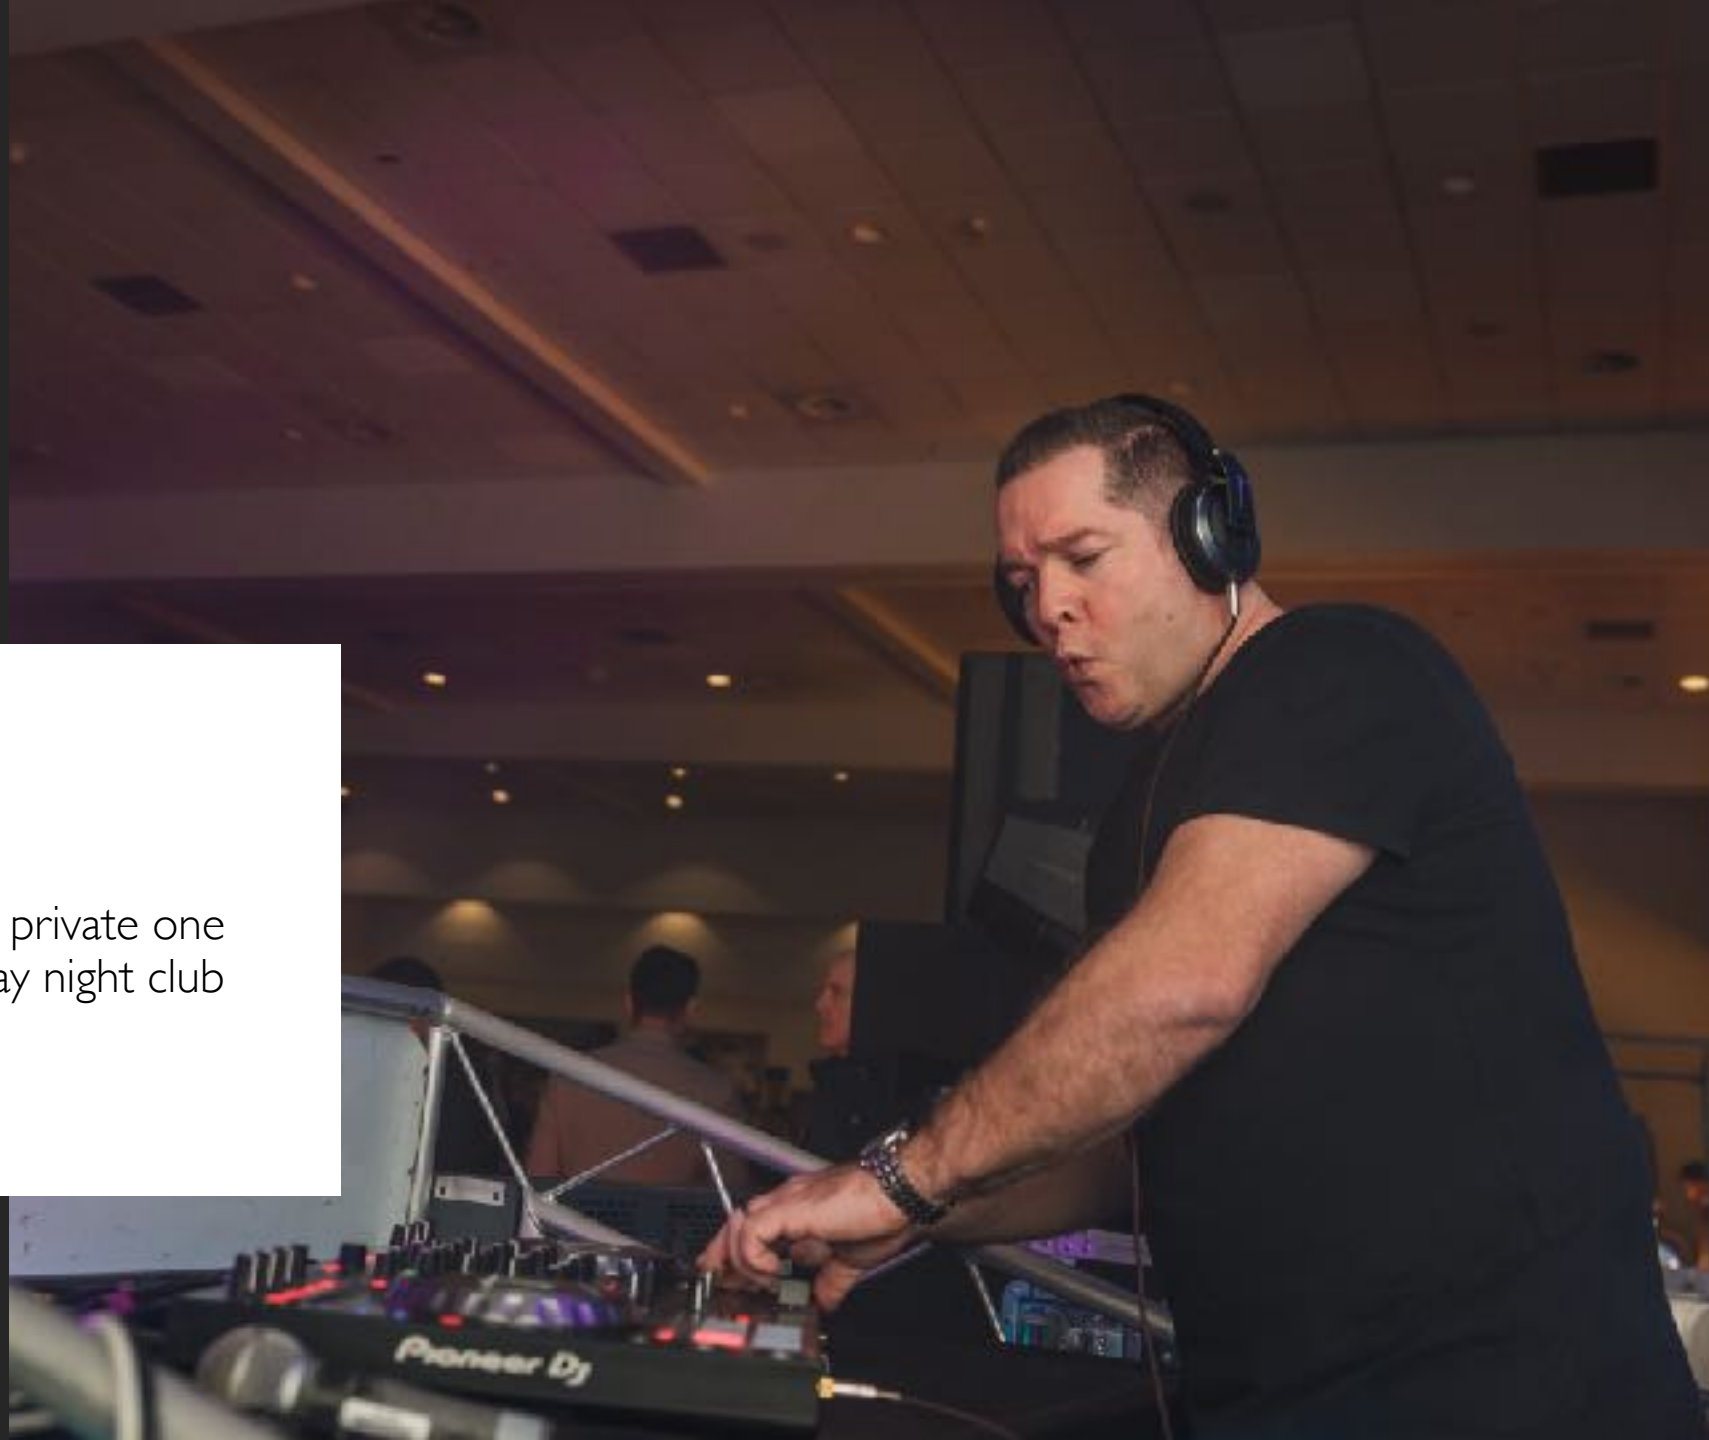

PARTIES

We like to party! Do you? From private one off parties to the weekly Saturday night club we have you covered.
